Septic Permit Application

Instructions: A septic system permit shall be required prior to the installation or modification of any wastewater treatment system. All systems shall be designed and approved by a Professional Engineer and installed by a State Licensed Installer as per SDCL Ch. 34A. **911 address must be obtained prior to installation.**

An exception to this rule is for a single wastewater disposal system on a single parcel of 40 or more acres of land. In those cases, the system does not have to be designed by an engineer. All other rules of the Wastewater Disposal Permit Ordinance 2007-1 shall apply.

When the installation of the system is complete, the installer within a reasonable amount of time shall contact the engineer in advance for inspection of the system. The system shall not be covered until the inspection is complete.

The Post Inspection Report shall be due to the county Planning Director no later than 30 days after the engineer inspects the system and no more than 180 days after the permit was issued.

Payment for fees is required at time of application **CASH OR CHECK ONLY ACCEPTED** **Make checks payable to Butte County Planning.** (All returned checks will be charged a \$40 NSF fee).

Fee- \$10 (non-refundable)

Septic System Design Engineers:

Brosz Engineering	605-347-2722
Helene Eddy, P.E.	605-642-4913
